

Ifield Community College exam Results 2017

KS4 – GCSE and equivalent

A fantastic set of GCSE results are being celebrated at ICC. We are delighted that the hard work put in by students and staff over the last three years has paid off and our year eleven are well placed to progress their ambitions.

The outcomes show the progress made by the school in recent years has continued. Our results are in line with predictions which the Ofsted inspection in June said would represent really good outcomes.

We are extremely proud of the success of all of our students who showed the tenacity and dedication to succeed.

We have many high achievers including Madhavi Dave who achieved the new grade 9 in both Maths and English along with six A* grades, a grade 8 and an A. Madhavi was also the student who made the most progress of all year eleven students with results more than two and a half grades above government estimates for her. Well done Madhavi!

We are very keen to ensure all students make good progress and the list of students who have more than a grade per subject above government expectations is;

Madhavi Dave, Fathima Abdul Kafeer, Max Brown, Ahmed Shah, Dhawani Trivedi, Aayushi Trivedi, Hannah Maslen, Sasha Munir, Jason Belbin, Spencer Perkins, Ricky Nayee, Callum Porter, Joana Paiva Pombo, Faisal Mehmood, Kelly Lewis, Jaye Golder, Manthan Nayee, Nirushan Navaneethapalan, Maxwell Lee, Hennaz Gull, Kirsten Miller and Lara Kenvin.

The majority of our year eleven students will be staying at ICC for sixth form and we look forward to their continued success.

Standard Measures

Measure	Outcome
Attainment 8	40.25 (This will change in January)
Progress 8	-0.03 (This will change in January)
Standard pass or better in English and Maths	48%
Good pass or better in English and Maths	24%
9-4 pass in English Language	59%
9-4 pass in English Literature	61%
9-4 Pass in Maths	54%

Ebacc	6% (only 12% of students were eligible)
-------	---

The government measure of Progress8, in our view the fairest measure of a school's success, will be made available through the link below and we will amend this document in the light of it.

We have given students wide choice and in this year and the next two years French and Spanish were not popular options. This affects the Ebacc statistic. We do not feel it is appropriate to narrow the choices of students to force them to complete the Ebacc set of subjects.

Post-16 destinations

KS5 – A level and equivalent

Ifield Community College is delighted to report on the outstanding successes of their sixth form students. The achievements of the young people with a qualification pass rate of 99.1% mean that Ifield Community College students are off to universities and employment across the United Kingdom.

Many of the students have excelled and will be taking up university offers as the first generation within their families to do so. They have chosen study in areas as diverse as Interior design, analytical chemistry, biological sciences, computer science, fashion styling and international business. There is a noticeable change, reflecting the national picture, with most students choosing vocationally based university courses such as business and accountancy, sciences, nursing and computer science. Students have gained places at a variety of institutions with the University of Surrey being the most popular choice and others including Exeter, Brighton, King's College London and Royal Holloway.

Further, many students have chosen to pursue their future plans through apprenticeships, gaining prestigious places at local employers such as BA and Marks & Spencer as well as specialised colleges such as BIMM for songwriting and music and Brinsbury College for animal care.

Students have been very aware of future financial implications and have sought other pathways to their chosen careers this year with, for example, one student is pursuing nursing through an apprenticeship rather than the university route and others making direct entry into the RAF and Royal Navy. We are very pleased that one of the students has successfully achieved a full time position within our college and another will be gaining valuable skills as an intern in our Sports department.

Standard Measures

Measure	Outcome
A level pass rate	100%
BTEC pass rate	100%

A level average grade	D+
Vocational average grade	Distinction
A level VA	-0.6
Vocational VA	0
Average progress in level 2 English	0.2
Average progress in level 2 Maths	0.7

Sixth form destinations

The year 13 cohort was small and academically weaker than other years. The year 14 students (who are not included in the VA calculations) did extremely well.

You can compare the outcomes of our students with other schools through the link;
