## Year 8 Curriculum Overview

## Subject: Mathematics

## Year 8 Overview:

Throughout year 8 students will develop and build upon their mathematical fluency, mathematical reason and problem solving skills through Number, Algebra, Ratio \& Proportion, Geometry \& Measures, Probability and Statistics.

## Autumn Term

| Outline of Key Learning | Hegarty Support | Lesson |
| :---: | :---: | :---: |
| Factors \& Multiples <br> a. Understand and represent calculations in different ways. <br> b. Use factors to simplify questions <br> c. Identify multiples <br> d. Find HCF \& LCM | $\begin{gathered} 146-148 \\ 27 \\ 33 \\ 31,34,36 \end{gathered}$ | Factors and Primes <br> Multiples |
| Sequences <br> a. Describe and continue sequences using diagrams <br> b. Describe and continue sequences and calculate the term to term rule <br> c. Find $n^{\text {th }}$ term of linear sequences <br> d. Generate a sequence given $n^{\text {th }}$ term <br> e. Describe and continue Fibonacci sequences | $\begin{aligned} & 196 \\ & 197 \\ & 198 \\ & 198 \\ & 263 \end{aligned}$ | Growing patterns <br> Term to term rule Finding the nth term |
| Straight line Graphs <br> a. Plot linear functions from table of results <br> b. Calculate the gradient of a line <br> c. Plot equations of lines parallel to axes. Eg: $x=3$ and $y=-2$ <br> d. Reflect shapes in $x$ and $y$-axis and $x= \pm a$ and $y= \pm a$ <br> d. Understand gradient as a ratio | $\begin{gathered} 206,207 \\ 201-204 \\ 205 \\ 639 \end{gathered}$ | $\begin{gathered} \frac{\text { Plotting functions }}{\text { Gradient }} \\ \frac{\text { Horizontal and vertical }}{\text { lines }} \end{gathered}$ |

| Percentages <br> a. Find percentage of amounts (allow calculator for complex calculations) <br> b. Increase and decrease an amount by a given percentage <br> c. Calculate decimal multipliers for increase and decrease <br> d. Calculate repeated interest <br> e. Calculate finances involving percentages | $\begin{gathered} 84-87 \\ 88,90 \\ 89 \\ 91-93 \\ 752-754,759- \\ 762 \end{gathered}$ | percentage of an amount increase by a percentage decimal multipliers |
| :---: | :---: | :---: |
| Indices <br> a. Write numbers as product of its prime factors <br> b. Write expressions with powers <br> c. Multiply and divide expressions with powers <br> d. Order of operations including powers and square roots <br> e. Simplify algebraic expressions with powers | $\begin{gathered} 29,30 \\ 102-104 \\ 105-107 \\ 120 \\ 173-175 \end{gathered}$ | Prime factors <br> Laws of indices |
| Developing Geometry - Area <br> a. Calculate the area of a trapezium by splitting the shape and using formula <br> b. Convert units of area <br> c. Find volume of prisms | $\begin{gathered} 559 \\ 700,701 \\ 570,571 \end{gathered}$ | volume of prisms |

Mathematics Department

| Spring Term |  |  |
| :---: | :---: | :---: |
| Outline of Key Learning | Hegarty Support | Lesson |
| Multiplying \& dividing Fractions <br> a. Multiply and divide a fraction by an integer <br> b. Multiply a fraction by a fraction <br> c. Divide a fraction by a fraction (multiplying by reciprocal) <br> d. Calculate reverse fractions | $\begin{gathered} 67 \\ 68,69 \\ 70-72 \\ 79 \end{gathered}$ | multiplying a fraction by an integer multiplying fractions using area Dividing fractions |
| Proportional Reasoning <br> a. Use ratio notation and simplify <br> b. Write ratios as fractions/proportions <br> c. Share an amount by a given ratio including worded problems <br> d. Use a ratio to find a quantity where one is unknown | $\begin{gathered} 329 \\ 330 \\ 332-334 \\ 338 \end{gathered}$ | Equivalent ratios fractions and proportions sharing in a given ratio |
| Algebraic Techniques <br> a. Multiply out single brackets including $3(x+3)+4 x$ or $-3 x+4 x(x+3)$ <br> b. Factorising expressions to a single bracket <br> c. Forming and solving equations and inequalities <br> d. Change the subject up to 2 -step <br> e. Expand two brackets | $\begin{gathered} 160,161 \\ 168-171 \\ 176 \\ 280,281 \\ 162,163 \end{gathered}$ | solving equations |
| Angles in Parallel Lines <br> a. - Draw parallel lines and measure all angles <br> b. Calculate corresponding, alternate \& Co-interior angles in parallel lines and quadrilaterals <br> c. Calculate interior angles in regular polygons up to decagon <br> d. Draw, measure \& calculate bearings Compare fractions, using inequality signs | $\begin{gathered} 481-483 \\ 562,564, \\ 565 \\ 492-496 \end{gathered}$ | Alternate and correspondingangles <br> $\frac{\text { interior angles }}{\text { missing angles }}$ <br> Bearings |

Mathematics Department

Director of Mathematics: MFO Key-stage coordinators: DKI, OPE
Teachers: JBE, VCH, SDA, LRA, HRI, TST, ATU

| Circles |  |  |
| :--- | :---: | :---: |
| a. Find the circumference and area of circles | 534,535, | Circumference |
| b. Calculate radius given area or circumference | 539,540 | perimeter of a sector |
| c. Find the perimeter and area of semi circles. | 536,541 | compound shapes involving |
| d. Find the perimeter and area of quadrants and sectors | 537,538, | circles |
|  | 542,543 |  |

| Summer Term |  |  |
| :---: | :---: | :---: |
| Outline of Key Learning | Hegarty Support | Lesson |
| Frequency Tables <br> a. Draw and interpret dual and composite bar charts <br> b. Collect and represent data in a frequency table <br> c. Calculate averages from frequency tables <br> d. Draw and interpret pie charts <br> e. Draw pie charts for data that the total isn't a factor of $360^{\circ}$ | $\begin{gathered} 402 \\ 414-417 \\ 427-429 \end{gathered}$ | frequency tables mean from frequency table median from frequency table interpreting pie charts |
| Frequency Trees <br> a. List outcomes of events systematically <br> b. Draw and complete frequency trees <br> c. Find probabilities using lists, tables <br> d. Complete and construct two-way tables (sample space diagrams) <br> e. Calculate expected probability, relative frequency and understand bias | $\begin{gathered} 670 \\ 368,369 \\ 422-424 \\ 356,357 \end{gathered}$ | Frequency trees combined events calculating probabilities relative frequency |
| Standard Index Form <br> a. Write ordinary numbers in standard form <br> b. Write standard form into ordinary numbers <br> c. Order numbers in standard form <br> d. Convert between metric units | $\begin{gathered} 122,124 \\ 123 \\ 691-699 \end{gathered}$ | standard form |
| Venn Diagrams <br> a. Complete and construct Venn diagrams <br> b. Calculate probability from a Venn diagram <br> c. Understand and use set notation | $\begin{gathered} 372,373,378 \\ -380 \\ 383,384 \\ 374,375 \end{gathered}$ | Venn diagrams <br> Venn diagrams and probability set notation |

## Loci \& Construction

a. Draw and measure bearings
b. Calculate missing bearings with use of parallel lines
c. Identify congruent triangles (ASA, SAS, SSS, RHS)
d. Construct angle bisector \& perpendicular bisector
e. Find Loci from a point, a line and a shape
f. Construct $30^{\circ}, 60^{\circ}, 120^{\circ}, 45^{\circ}$ or $90^{\circ}$ angles
492,493
$494-496$
682,683
660,661
$674-679$
664,665

664, 665
